## PERSONAL STATEMENT

I am a second-year Computer Science student with a strong foundation in programming, problem-solving, and software development principles. Passionate about building efficient applications, I have hands-on experience with languages such as Visual Basic, Java, and C/C++ through academic projects and personal work. Eager to apply my skills in a real-world environment, I'm seeking a software developer internship where I can contribute to a collaborative team, learn from experienced professionals, and grow as a developer.

---

## EDUCATION

### BSc Computer Science | University of Dundee

2024-present

I have successfully completed the first year of my degree, passing all nine modules. Throughout the year, I worked on a variety of projects, some of which were group-based, giving me valuable insight into team dynamics and effective collaboration in a workplace setting.

### Highers and Advanced Highers | Carnoustie High School

2018-2024

Advanced Highers-

- Chemistry(C)

Highers-

- Computing(A)
  - Maths(A)
  - Chemistry(B)
  - Physics(B)
  - English(C)
- 

## WORK EXPERIENCE

### Crew Member | McDonald's

2023-present

I am a fully trained employee at McDonald's, where I am involved in both food preparation and customer service. During my time here, I have developed strong teamwork and communication skills while working with my colleagues. I have also demonstrated problem-solving abilities in fast-paced situations and gained confidence and a strong sense of responsibility in delivering high-quality service

---

---

## SKILLS

### Technical Skills

- Programming Languages: Visual Basic, Java, C/C++
- Web Technologies: HTML, CSS

### Other Skills

- |                      |                       |                       |
|----------------------|-----------------------|-----------------------|
| • Project management | • Technical expertise | • Leadership          |
| • Communication      | • Problem-solving     | • Attention to detail |

---

## AWARDS

I participated and completed my DofE bronze award. Through this award I improved my leadership abilities as well as showing my ability to work effectively as part of a team.

---

## PROJECTS

My final project of the first year was a group project where we had to develop a social media app in Java where you would be able to post photos, add profiles, and add and remove friends.

## HOBBIES AND INTERESTS

- I have recently taken up golf and have been playing it for around nine months. I have started this hobby with some of my fellow classmates.
- I am a black belt in karate and have been practicing the martial art for over eight years.
- I enjoy hill walking and Munro bagging.
